PRO SKILLS

PRE SKILLS

KANAAN ALAHMAD

Software Developer

I am a seasoned Full Stack Developer with a proven track record in optimizing and deploying high-performance applications for diverse sectors including e-commerce and organizational needs. My expertise lies in backend development, utilizing technologies such as Node.js, PostgreSQL, and MongoDB. Additionally, I have a strong background in React.js, having successfully contributed to multiple projects and landing pages. My effective communication skills, both written and verbal, facilitate seamless collaboration within teams. I thrive in dynamic work environments, am adaptable to change, and excel as both a team player and an independent contributor.
